Subject: New DVID re drinking water assessments

Good news: The media shop here is getting busier each day. But we were able to get the English version of our op. from yesterday finalized. The link is below for inclusion in the next news release. I asked them to correct Cristina's name (no H), but let's not let that hold us up. Note: FEMA leadership is clamoring to know how these assessments are going and when they will be done.
